### New Year's Ball Big Success

The annual New Year's ball held on Friday evening, December 30, under the Auspices of the Order of the Royal Purple, was one of the most successful events of the kind ever held in Champion. The attendance taxed the capacity of the hall, the music was excellent and the refreshments enticing. The ladies are to be highly congratulated on their success, and undoubtedly any future dance under the same auspices will be eagerly looked forward to.

### The Cleverville Pioneer Club

The annual gathering of the above organization will be held in the Community Hall, Champion, on Friday, February 3, 1933 at 8:00 p.m.

A musical program, followed with dancing, old time tunes with the annual business meeting of the club.

Supper will be served in the banquet hall during the evening. All members attending are requested to bring refreshments as usual.

A registration fee of fifty cents will be charged all persons fourteen years of age and over.

These newspaper notices will be the only intimation given of this annual gathering, and all those eligible to membership in the club are urged to plan and be present.

H. A. Williams, President  
H. Cooper, Secretary

## Some New Light Is Thrown On Constitutional Development As It Applies To The Dominions

At the last annual meeting of the Royal Institute of International Affairs in London, England, a paper of which has just been received in Canada, Hon. N. W. Rowell, K.C., president of the Canadian Institute of International Affairs, referred to the fact that when the new Spanish Republic was recognized by the Empire, six different instruments of recognition, instead of one as heretofore, were deposited—one for each of the nations comprising the British Commonwealth. Mr. Rowell went on to say:—

"As a result of the constitutional development of the past twenty-five years, and particularly of the past ten years, the relations between the Mother Country and the Dominions have fundamentally altered, and now we have six nations, all with strong allegiance to the Empire, each entitled to conduct its own foreign policy, to negotiate its own treaties, and to deal generally with foreign affairs affecting it along the lines agreed upon in the resolutions of the Imperial Conference. This is a most important and fundamental issue: How is it possible to maintain essential agreement in matters of foreign policy with six governments conducting foreign affairs? How is it possible to conduct the foreign relations of the empire under such conditions? Will there not be a measure of unity essential to maintain the strength and security of the whole? How is it possible under these conditions so to conduct the Empire's foreign policy as to harmonize with, yet prevail among, the different nations constituting the Commonwealth? How is it possible to settle disputes arising between members of the Commonwealth in such a way as will be acceptable to all countries and maintain a good understanding between them? These are questions of fundamental importance upon the satisfactory solution of which the future existence of the empire depends and without their solution our empire will not have the future of the Empire with it."

The form which British recognition of the Spanish Republic took threw light on constitutional development of the British Empire. The constitution of the Spanish Republic itself threw light on constitutional problems associated with the inter-relation of all nations. The recent meeting in Madrid of the Governing Body of the International Labour Office, at which Canadian delegations has been a public reminder. Into the very constitution of Spain have been written the Spanish obligations under the League of Nations and the International Labour Organization. The most recent automatic ratification of International Labour Conventions, for instance, is provided for. At the meeting referred to Spain was congratulated upon leading the world in the number of these ratifications, having ratified and carried into Spanish law, all of the thirty-one except one. There have been fourteen ratifications since April.

Incidently, because of federal constitutional difficulties Canada has but four ratifications to her credit, the Irish Free State leading the British Commonwealth with twenty-one.

### U.S. and War Debts

#### Words of Mr. Hoover Just Before America Entered the War

In view of the critical position of the world due to Germany's war, you allow me to recall the words uttered by Mr. Hoover on February 1, 1917, just before America declared war:—"America will be rich, prosperous, and wealthy as the result of this war. We shall have made good millions of the wealth of Europe. The money which has come to us from these people is money in trust, and unless America recognizes this trust she will pay dearly and bitterly for its possession."—Sir Leo Chizzago Money, in the London Times.

#### An Acceptable Discovery

James A. Richardson, one of Canada's foremost grain men, has found that routing grain via the Maritimes instead of the Great Lakes and New York is profitable. It is a most acceptable discovery for the whole of Canada for it will not only mean business of that nature kept for the benefit of Canadian workers but is likely to point the way to other trade channels or additional profit.

### Doctor Discovers New Type Telescopio Lens

#### Claims It Gives Full Sight To Near Blind

William Feinblom of New York, announced a discovery at Chicago, which said will bring back normal sight to thousands of persons now practically blind.

Feinblom's discovery is a new type telescope lens which will enable persons with as little as two per cent sight to see as well as they could with a 100-power telescope, but with the added comfort of seeing things just as they really are, it was explained.

Announced that the new lens had been perfected was made at the meeting of the American Optical Association in Chicago.

Feinblom predicted his discovery would enable thousands of people now dependent upon charity to become independent.

### Indicate Safe Landing Field

#### Amelia Earhart Suggests Cow As Signal Of Aviation

The cow should be placed at the landing field, according to Amelia Earhart. Earhart, first woman to cross the Atlantic solo, they indicate good pasture fields where it is usually safe to land, she said.

"Not true," my judgment after flying eight nights," she declared in referring to her trans-Atlantic hop. "I tried out a couple of pasture fields in Ireland before I came down. There were cows on them. The first day we were cows on them. There were no canaries unless some of them died from fright. But those cows did jump around."

### Winnipeg Newspaper Union

#### FOR Dainty Week Maids

Here are French undies that are very practical.

A cunning slip—a one-piece affair that mother will especially like.

It is made of a soft, light, easily laundered.

It opens at the centre back so as daughter can slip into it easily.

The panties have elastic inserted at the waistline and at the legs.

It is made of a practical outfit at a very small outlay.

A lawn, batiste, cambric, and crepe de Chine.

Style No. 714 is designed for sizes 1, 2, 4 and 6 years.

Sizes 1, 2, 4 require 1½ yards of 30-inch material with 3½ yards of lace edging.

Price of pattern 20 cents in stamps or coin (coin preferred). Wrap coin carefully.

### FRENCHMEN VIEW AMY'S FEAT WITH ALARM

Any Johnson Molaison's recent record-breaking flights between London and Cape Town have brought only grudging praise from Frenchmen, who are more inclined to the possibility of French women becoming infected with the virus of feminine athletic fever. According to the *Paris Journal*, a prominent Frenchman, J. H. Hoosier, feels that such performances as Mrs. Molaison would endanger a French women's feminine charm. "Masculinization of the woman," he writes, "against the dictates of nature and organized society." Here we see Amy, not the least perturbed about the "situation" she has created by her prowess, being welcomed in Cape Town after her remarkable flight from England. She has since returned to England and established a new record for the homeward journey.

### Or-Cart Methods

#### Stonewall Of Presidential Election Brought Down By American Women

M. E. Tracy, in the New York World-Telegram says:

It takes about one year to nominate, elect and install a President of the United States. That is ridiculous. Let us utterly to square with the speed of the American idea of progress through speed.

Without warning or preparation Canada can order a general election, conduct an effective campaign and get a new government into office within six weeks. As our elections are held at regular intervals and as everybody knows when they will occur, we ought to do as well, if not better. Instead we take more time than our grandfathers did when they had to depend on oracles and gossip.

For people who can't bear to ride under fifty miles an hour, who prefer the telephone to mail and who want everything broadcast over the radio, we have the right to have our politics with amazing patience. It is because we enjoy the game, or lack the ability to conduct public affairs in an efficient manner?

Apparently, the time goes back to the days of the King, upon which people are invited to the Coronation.

So we wait and wonder what the Constitution is involved. We just can't stand the idea of removing anything from that sacred document, no matter how antiquated or unworkable it may be."

### A Forty Inch Mirror

#### For Telescope To Be Installed in U.S. Naval Observatory

Designed for a photographic telescope to be installed in the Naval Observatory, Washington, D.C., a mirror 40 inches in diameter has been made by the Optical Mechanic, Megaloptics.

The telescope will have a range of approximately ten million light years, each representing over 63,000 times the distance from the earth to the sun and will be one of the world's most powerful instruments.

One of the chief difficulties in

making the mirror was to get it to

reflect the light correctly.

It has been made of a special

glass which is 20 times as

strong as ordinary glass.

Style No. 714 is designed for sizes 1, 2, 4 and 6 years.

Sizes 1, 2, 4 require 1½ yards of 30-inch material with 3½ yards of lace edging.

Price of pattern 20 cents in stamps or coin (coin preferred). Wrap coin carefully.

## Northern Manitoba Can boast Of The Largest Experiment In Muskrat Farming In The World

### Structure Of Protoplasm

#### All Living Substances Swarm With Microscopic Sun

That the flesh of men and the leaves of plants—indeed, all living substances—hold a fluid that swarm with microscopic suns that shoot with heat of 3,000 degrees centigrade is the concept now favored by a biologist to astonish the world. The idea becomes more believable at second glances, however, as Dr. George Crile, who phrased it for a meeting of the Royal Society in London, last Friday, based the whole theory on the character of protoplasm—a term familiar to anybody knowing the rudiments of biology.

Oddly enough, this theorizing of Dr. Crile has led to a solar theory of life, which is based on the assumption that the protoplasm of living organisms is composed of cells with protoplasmic suns, which are the infinitely small counterparts of stars. This can be associated with the theory of the Russian scientist Guytch, who said the radiation of onions and radishes gives off heat, and that the scientist of the Royal Society of London, Dr. Guytch, who has demonstrated the radiation of living organisms in experiments with yeast and the cells of frogs. He found that the protoplasm of plants and animals gives off rays of different wave lengths.

It was Mehl who gave a name to protoplasm in 1846. He had observed the substance of life in his studies of the green color that flows in the cells of plants. Remak, in 1848, gave the name of protoplasm to the basic material of animal cells. Chemical analysis has shown that protoplasm contains a large proportion of proteins, which are compounds of carbon, hydrogen, oxygen, nitrogen and sulphur. Apparently, it gives off heat, and of waves of ultra-violet light, observed by Dr. Crile and other workers, has origin in this chemical structure of protoplasm.

### An Important Animal

#### Ottawa's Largest Dead Cow

A cow, its ownership in many records, is the cause of the largest personal file of correspondence on Parliament Hill. Its death led to the formation of a special committee to inquire into the cause of death.

Professor MacEwan emphasized the imminence of the British market for livestock. That country's imports of animal products were greater than the imports of vegetable products.

### Object To Name

#### "Green Flon" For New Townsite Does Not Meet Approval

Opposition to the adoption of the name "Green Flon" for the new townsite on the shores of Beaver Lake, Sask., has been registered with the Department of Natural Resources by the Beaver Lake Prospectors Association.

Opponents say the name "Green Flon" was tentatively adopted by the Department of Natural Resources for the new mining town, the name will not be retained and will be replaced by "Green Flon."

WORLD HAPPENINGS  
BRIEFLY TOLD

William Moore, who died recently in Weymouth, England, sang in church choir for 62 years.

Imports into Finland from Great Britain in the first nine months of 1932 were 50 per cent more than in the same period of 1931.

Two speech clinics have been opened in New York for children who suffer from defects and handicaps in speaking.

The Canadian Free State and Canada-Southern Rhodesia imperial conference trade agreements were brought into force on January 2.

Captain J. A. Mollison, the long-distance flyer, will start from England on February 7 for a flight to Rio de Janeiro in 10 days.

In order-to-control the government has continued until March 31, 1933, the fixed valuation of the pound sterling for special duty purposes at the rate of \$4.40.

More than five times as many bananas were exported from the French West Indies in the first eight months of 1932 as in the same period of 1931.

A new tariff order issued at Dublin, Ireland, withdraws, in effect, the preference hitherto given to British boats and shoes, men's clothing and certain iron and steel articles.

Japanese government is continuing on China in the organization in Victoria, B.C. There is now listed 22,035 Japanese and 27,139 Chinese. Native Indians number 24,590.

The Prince of Wales consented to introduce a series of broadcasts on the radio to the Canadian people before on successive Fridays. The purpose of these talks is to help those who are themselves willing to help.

Export of wheat from the port of Vancouver from the beginning of the crop year, August 1, to the end of November amounted to 47,000 bushels. This volume sets a new high record for the period, exceeding the best previous record by 10,000,000 bushels, set in 1928-29.

## Hard To Identify

## Sketch Of Looked-Alike

An amusing story as told by Sir Philip Gibbs concerns an artist who was sent abroad by the editor of a London illustrated paper. His job was to sketch the secretary and the people. It was however, his first experience, and he made a mess of it, the sketches he turned out being very poor and at times quite unintelligible. The editor took him to task on his return, and told him that if he could not make a sketch of a person of anything it would have been far better to have indicated in writing what the picture represented. "Take this one, for instance," he continued, picking up one of the artist's sketches. "You say you were apparently in touch with a horse, so it's time to draw it more carefully, why didn't you write above it: 'This is a Windmill'?" Then our people would have known what it was intended for, instead of which they had to guess. "But it isn't a windmill; it's a man on horseback," replied the artist.

## Had Wonderful Memory

## Head Porter In Savoy Hotel Seized

Forged a Face

A feature of £20,000, made chiefly in tips during the 20 years as head porter in the Savoy Hotel in London, England, has been left by Nicholas James Mockett, who retired in 1926 and died recently at the age of 73. Coming in contact with about 25,000 Americans annually, it is said he had a photographic memory and seldom forgot a face at a whim of his distinguished guests. According to the London Daily Mail, J. Pierpert Morgan once invited him to spend the summer vacation at his guest in the United States. Mockett, however, seldom travelled farther than Margate, declined, as he did the invitation of the American Hotel Porters' Association to attend a New York banquet as the guest of honor. Mockett spent his retirement in writing a book of reminiscences.

## Dividend Not Wanted

Depression? Poo! Five thousand customers of the Home Savings and Loan Association of Fort Wayne, Indiana, told Mr. A. Frazee, auditor, that checks for \$10,000, written Sept. 1, when the association's receiver declared a dividend, have not been called for by the claimants.

A pedestrian is a person who finds that it doesn't pay to go straight.

## The Friend of Europe

## France Far From Being Enemy Of the League

France is often represented as the enemy of the League; but it would be more accurate to represent it as the friend of the League. In default of natural armament, it is yet not a negligible one—of which there is yet no vestige—a one-sided armed peace is at least a valid insurance against war. It must be one thing or the other: either a Europe which has no natural enemies, or a Europe in which the victors of the last struggle remain prudently ready to deal with any impulse to renewed aggression—London Evening Post.

## Revives Biblical Story

## German Professor Believes Children Of Israel Didn't Cross Through Red Sea

Professor of the Old Testament in the Halle University. He has written a book on the subject and places it in the library of the ecclesiastical seminary at Belgrade, the Serbian capital on the Mediterranean shore of the Sinaia

Sea. In his judgment, the legend did not pass through the Red Sea when Pharaoh and his host were swallowed up by him.

He believes that the children of

Israel did not pass through the Red

Sea when Pharaoh and his host were swallowed up by him.

## U. S. STUDIES NEW METHODS OF TAXATION

Washington—A new search for additional sources of revenue to balance the United States budget was initiated by Democratic leaders of the United States House of Representatives, and the possibility of enacting a general sales bill at this session sharply diminished.

Reports from Albany, N.Y., that President-Elect Franklin D. Roosevelt disapproved of the suggested measure failed to stop both Speaker John Bankhead and Chairman James Collier of the House Ways and Means Committee, to say that "developments in the last 24 hours" practically ended all prospects of that sort of levy for the present.

Collier said the McKeown plan to levy a privilege or license tax of one per cent. on chain stores and other interstate businesses, estimated to return \$600,000,000 annually, would be submitted to the House.

Albany, New York.—President-Elect Franklin Roosevelt will seek first-hand information on the financial situation of the United States, it became known before committing himself to any tax policy in connection with the problem of balancing the federal budget.

The gathering of this information will be one of the first tasks to which Mr. Roosevelt will set himself after his election as governor of New York.

### Had Rough Voyage

Liner "Majestic" is Hit By Heavy Seas

New York.—The "Majestic," one of the largest liners afloat, arrived in port with the forward section of her forecastle battered in, and most of the passengers discussing a freak wave which caused the death of a sailor and shook the ship with terrific force.

Premier R. B. Bennett was a passenger aboard the liner, returning to Canada from a short visit to London. The story aboard told this.

As the liner was moving slowly toward the United States with her speed reduced to eight knots, the wave, termed "a freak of an 'accumulative,'" smashed over her bow, struck the foredeck head-on, tore open a bulkhead, flooded the crew's galley, swept everything ahead and caused the entire ship to shake under the impact.

J. H. Johnston, an able seaman, was in deckhouse "B" and was thrown so violently against a metal wall that he later died of injuries. He was buried at sea and the passengers raised a \$250 fund for his widow and two children.

### Strike Favored By Farmers

Principle Endorsed By Hundreds In Meeting At London

Ledgar, Alberta.—The principle of the proposed strike of prairie farmers beginning in the spring of 1933 was endorsed at a meeting of several hundred farmers here. The meeting prepared resolutions which will be sent to the federal and Alberta governments urging a ban on the 1932 wheat crop depreciation of the Canadian dollar to the level of the British pound sterling, adjustment of debts on farm lands and a debt moratorium.

#### In Writing History

Toronto, Ont.—One of the most unique pieces of historical research ever attempted in North America is nearing completion in the basement of a Toronto home. W. Perkins Bull, K.C., is writing a history of the prairie country, and is making it so comprehensive it will be a microscopic study of the development of civilization on this continent.

#### Is Justice Of The Peace

Winnipeg, Man.—The blind goddess with the scales and sword now has sprouted a pair of wings in Manitoba. An order-in-council passed by the Manitoba Government makes Roy Brown, an aviator of the provincial forestry service, a justice du boullett, a royal justice of the peace having jurisdiction under the small debts Recovery Act.

Being treated in Europe with carbon dioxide and nitrogen can be kept for 12 months and still be indistinguishable from fresh ones.

W. N. U. 1975

### For Coalition

Roos Has Plans For New Government For South Africa

Johannesburg, South Africa.—Peter Roos, former member of the Nationalist Government, indicated that he intended to take the premiership of South Africa himself if his plan for a coalition government succeeds.

The former judge, who resigned last week from the appellate division of the supreme court, told interviewers he will declare openly for a coalition government.

"We must destroy any remains of racism, and the two sections must join to pull the country out of the muck," he said.

"I shall say further," he added, "that neither General Smuts nor Prime Minister Pretorius can arrange for a coalition. If they could I should not be in the arena."

Mr. Roos' pronouncement created a deep impression. While he had returned to politics for the expressed purpose of attacking the government which he once served as minister of justice, it was not thought he had any design on the premiership himself.

His attack, which admittedly weakened the position of the government in its handling of natives, while the majority had already shrunk to a very small proportion of the membership, was based largely on his opposition to retaining the gold standard.

### Railway Men Retire

Ninety-Two Officers and Employees Retire

Montreal, Quebec.—Ninety-two officers and employees of the Canadian Pacific Railway will be retired on pension January 1, according to an announcement recently received.

The retirement occurs in a critical year of branch of the company's activities, affecting offices in Great Britain, Canada, United States and the Orient.

Among the more prominent names are J. L. D. Dyer, chief engineer, Winnipeg; S. C. C. T. T. president, agent, Nelson, B.C.; M. J. Thornton, district superintendent of colonization, Portland, Ore.; J. A. MacGregor, superintendent, Moose Jaw division, and W. Kirby, master in British Columbia lake and river service.

### Treaty With Germany

Three Months' Trade Arrangement Goes Into Effect

Ottawa, Ont.—Canada and Germany have made a three month temporary trade arrangement from January 1. For the first time in 32 years, Canadian goods under the agreement will be accorded most-favored-nation treatment by Germany.

The Dominion will receive the conventional tariff of Germany and the general tariff with no conventional rates. Canada will be accorded an immediate tariff on German goods. A definite treaty is expected to be terminated between the two countries before March 31.

### Must Understand French

Working Knowledge Of Language Essential For Radio Secretary

Ottawa, Ont.—Organization of the new Canadian radio service commission, under Hector Carverworth, chief commissioner, is under way. The civil service commission is now receiving applications for the post of secretary of the commission which carries an annual salary of \$2,500. The secretary will be in charge of production. Ability to speak and write both the English and French language is one of the qualifications required.

### Emerge From Depression

University Professor Says Recovery Coming In Spring

Cincinnati.—Expressing belief "the country will, in due time, climb out of this depression just as it has recovered from every previous depression," Frederick S. Diebler, economics professor at the University of Cincinnati, named today "we must not talk too seriously the pessimistic and lugubrious predictions of some of the members of the technocracy group of engineers."

#### Fifa Sweeps Boot

Glasgow, Scotland.—Nearly one-half the 900 passengers aboard the steamer "Cameronia," York, have suffered from a mild type of influenza. Their discomfort was increased by rough weather.

### Crops In Argentina Destroyed By Locusts

Insects Completely Cleaning Up Cotton, Maize, and Tobacco

Chicago.—The Chicago Tribune publishes the following cable from Buenos Aires: "The advance of a dense swarm of locusts is reported to be 350 miles long and five miles wide, down the banks of the Parana River, has caused a panic of desperation among the farmers. The insects are completely cleaning up the cotton, maize, and tobacco crops, despite frantic efforts to stem the living avalanche of destruction."

"Available supplies of arsenic dust and other locust-killing products are exhausted, and the farmers have directed their efforts to appeal to authorities for assistance."

"Juan Spomer, a farmer, and his wife, of San Salvador, in Entre Rios province, committed suicide by hanging when they found their fruit orchard completely destroyed and fallen prey to a swarm of locusts."

"They left a letter saying that 'All our capital is gone and three years' labor lost. Therefore we prefer to die rather than begin the struggle again."

### Liquor Sales Falling Off

Figures Show Profits For B.C. Are Greatly Decreased

Victoria, B.C.—Total profits for the British Columbia government from liquor sales and pur-and-mutual taxes amounted to \$1,069,000, for the six months preceding September 30, 1932, compared with \$1,637,783 for the previous six months.

Total amount of liquor sales for the last half-yearly period were not revealed, but is understood to be in the neighborhood of \$4,000,000 against \$6,300,000 for the preceding six months.

With this record were established

the last others, Franklin D. Roosevelt received the highest popular and election votes ever given a winning candidate.

President Hoover polled the largest popular vote ever cast for a loser.

The 77,528 vote polled by William D. Upshaw as the prohibition party candidate, was the largest given this ticket since the first election after national prohibition was adopted. It was nearly four times the 1928 vote.

It is not known what to eat for a meal.

That did not keep Julius Sondik,

unemployed and on relief, from hurrying to the police station with a purse and \$37 he found on the street.

The owner, Mrs. John Ovazza, was so pleased to receive valuable papers which had just contained

that she gave Julius \$15 reward.

Japanes At Singapore

Ottawa, Ont.—Possibility of Japanese interest establishing manufacturing plant in Singapore in order to take advantage of the preferential tariffs accorded on Japanese goods by Canada is being investigated by the Canadian government. So far no such plants have been established but rumors they were contemplated have come to the attention of the department of trade and commerce.

BRITAIN READY TO SEEK NEW DEAL ON DEBTS

Insull Is Freed At Sitting Of Greek Court

Athens Greece—Samuel Insull ate dinner with friends tonight; a free man after a Greek court had refused to sanction his extradition to the United States to answer Cook County, Ill., charges of mismanagement of the funds of his utility companies.

The court, after hearing arguments

in the case of the authorities of Cook County. The case of Martin comes up this month at Barrie, Ont.

There were extraordinary scenes

among the large crowd which had

gathered in Athens for the verdict.

Chants of "Long live Greek justice!" echoed through the hall from which Insull emerged something of a hero.

"I owe thanks to Greek justice for the sympathy expressed," the Chicagoan said.

The charges against Mr. Insull in

Chicago are grand larceny and embezzlement. They involve payments of \$66,000 and \$104,000 which, according to a deposition made by Oliver M. Johnson, treasurer of the utility companies, were made to brokers for Martin Insull.

THE CHRONICLE, CHAMPTON, ALBERTA

### BRITISH STAR SCORES

Miss Philippa Barry, English musical comedy star, who was visiting Hollywood recently to make her first picture on this side of the Atlantic, has scored quite a sensation. Critics forecast a brilliant future for her.

### Largest Vote Ever Pollled

Last U.S. Presidential Election Set New High Record

Washington.—The largest vote in the history of the United States was cast in the November presidential election, 36,734,251.

With this record were established the last others, Franklin D. Roosevelt received the highest popular and election votes ever given a winning candidate.

That did not keep Julius Sondik, unemployed and on relief, from hurrying to the police station with a purse and \$37 he found on the street.

The owner, Mrs. John Ovazza, was so pleased to receive valuable papers which had just contained

that she gave Julius \$15 reward.

Japanes At Singapore

Ottawa, Ont.—Possibility of Japanese interest establishing manufacturing plant in Singapore in order to take advantage of the preferential tariffs accorded on Japanese goods by Canada is being investigated by the Canadian government. So far no such plants have been established but rumors they were contemplated have come to the attention of the department of trade and commerce.

BRITAIN READY TO SEEK NEW DEAL ON DEBTS

Insull Is Freed At Sitting Of Greek Court

Athens Greece—Samuel Insull ate dinner with friends tonight; a free man after a Greek court had refused to

sanction his extradition to the United States to answer Cook County, Ill., charges of mismanagement of the funds of his utility companies.

The court, after hearing arguments

in the case of the authorities of Cook County. The case of Martin comes up this month at Barrie, Ont.

There were extraordinary scenes

among the large crowd which had

gathered in Athens for the verdict.

Chants of "Long live Greek justice!" echoed through the hall from which Insull emerged something of a hero.

"I owe thanks to Greek justice for the sympathy expressed," the Chicagoan said.

The charges against Mr. Insull in

Chicago are grand larceny and embezzlement. They involve payments of \$66,000 and \$104,000 which, according to a deposition made by Oliver M. Johnson, treasurer of the utility companies, were made to brokers for Martin Insull.

### U.S. Would Collect

Insists That France Meets Payment Before Further Negotiations

Washington.—The United States government plans to insist that France meet the December 15 debt instalment before there are any new negotiations with that country.

Secretary of State Henry L. Stimson made this clear in an assertion to the Associated Press in regard to the conversations with Premier Paul-Emile and Ambassador Edge.

The secretary said the report of Ambassador Edge did not require a formal answer, but that it doubles what the United States government should make of the position of this government that the December 15 payment should precede new negotiations.

Mr. Stimson did not expect to talk with Ambassador Edge, but the Ministry of Commerce experts before the experts meet at Geneva to arrange the agenda for the world economic conference.

The administration has taken the attitude that economic matters, disarmament and the war debts problems are inter-related.

### Radio Hook-Up

Best Trans-Atlantic Broadcast Ever

Caribou, Ont.—The British Empire radio hook-up on Christmas morning was the most successful trans-Atlantic broadcast ever carried out as far as reception and coverage in Canada was concerned. This was the conclusion of the Canadian radio commission, today after he had read hundreds of congratulatory communications from all parts of Canada.

The commission had, as its share in the enterprise, the right to receive 100 per cent. of the radio stations in Canada to assure speedy and punctual progress of the globe-circling programme. "We have the most superb co-operation from all the British companies and stations," Mr. Charlesworth said.

### Use Braille System

New Method Now Arrived At Canadian Institute For The Blind

Toronto, Ont.—Culmination of years of negotiation and largely broken about 18 months ago, the new universal Braille system has arrived at the Canadian National Institute for the Blind and will be forwarded within the next few days to every school for the blind in Canada.

Representatives of Canada, at a series of conferences, brought together from Britain, the United States and other countries, the result that more than 150,000 blind people of British Columbia, Ontario and the United States will now be able to enjoy an increased number of volumes in the Braille system of embossed print at a saving of thousands of dollars.

THE CHRONICLE, CHAMPTON, ALBERTA

### RIGID IMPORT QUOTA SYSTEM FOR FRANCE

Paris, France.—The most rigid import quota system in French history will be established at the beginning of 1933, placing further restrictions on imports, it was learned here.

Ministry of Commerce experts are working through the holiday to elaborate the details of the new quotas before January 1.

It is understood none of the new quotas will exceed those now in existence, and that in many cases they will be considerably smaller. Measures are being taken to insure that the Ministry of Commerce will refuse to grant exceptions as it has done in the past as a favor to certain nations.

Ministry of Commerce officials believe that strict quotas will be in effect beginning at the start of the year, and that a temporary trade arrangement from January 1 to March 1, will be accorded, making nation-favored nation treatment by Germany.

Hon. C. H. Cahier, secretary of the Canadian delegation, said last week, negotiations for a trade treaty between Canada and Germany had been a success, and that the two countries had agreed to replace the one revoked several months ago. Canada and Germany entered a temporary trading agreement at the first of the year, to be replaced later by a permanent trade treaty.

It is believed now Ottawa will be carrying on some time ago with the Argentine, but no basis for a treaty was reached. Agreements with other South American countries are contemplated.

In addition to proposals to establish a barter system between Canada and Soviet Russia, unofficial negotiations have been conducted to exchange Canadian cattle for Russian oil.

### Receives Service Medallion

Saskatoons Diving Champion Honored For Heroic Rescue Last Summer

Toronto, Ont.—Stuart W. Dewar, Saskatoon, 21, has been awarded the heroic service medal by the National Y.M.C.A. Physical Education Committee, it was announced here. He has the record of Marshal Ayers from drowning last summer. Only four similar awards have been made in recent years.

Ayers, 16-year-old brother, got into difficulties in the Beaver Creek River, Dewar, 18, of 100-5th Street, and brought Ayers to the surface. Dewar was rescued by his first aid mates. Dewar died after bringing him to shore. Dewar is the Saskatoons diving champion.

B.C. Auto Licenses

Motorists May Pay One Quarter Of License Fee Until March 1st.

Victoria, B.C.—Announcement was made recently that motorists in British Columbia may, by paying one-quarter of their license fees, receive a sticker enabling them to operate their cars until March 1st, when the full fee is paid.

Legislation will be introduced at the next session of the legislature extending the coming year to March 1, 1934.

### May Share Leader's Exit

Saskatoon, Sask.—When Peter Veregin, imprisoned Doughboy leader, is deported, many of his followers will probably follow him into exile. Many Veregin district Doughboys have already expressed themselves to this effect. The local members are awaiting word of their leader's wishes.

THE CHRONICLE, CHAMPTON, ALBERTA

### Wife Freed, Indemnity

Wife Freed, Mrs. B. J. Collett

and Sons, coal and lumber dealers, have a new building and a whole lot fewer unpaid bills on their books. Customers with unpaid bills were permitted to work them out wrecking the old plant and building the new. Some customers even established credit that way.
